

# KPN FASHION

KPN Fashion came in to existence from the early months of 2019. The idea behind creating this company is to produce all types of Leather Accessories (from Bags, wallets, Purses, Belts & Jewellery).

We are part of the well known and established Blue Diamond Leders. Blue Diamond Leders is synonym with high quality and technology of making leather.

Having been in the Production & Processing of leathers for nearly 4 Decades the Promoter Mr. A. K. Pandian, decided to venture out in creating the best manufacturing facility for producing leather accessories.

For this purpose, experts from the field of leathers accessories with extensive experience have been romped in. In the urge, to create the best in whatever we produce, we felt the importance of giving the best inputs to make the leather accessories functional and fashionable.

We decided to introduce the best technology in making these leather accessories and hence preferred to call it Engineering rather than producing.

KPN Fashion have moved gradually in creating a nice plant with all required machinery, labour force and knowledgeable technical team.

We have also created a training department to convert and educate the unskilled to skilled and efficient work force from the neighbouring villages.

The strength of KPN lies in its forward thinking and long term sighted management, well backed by its own tannery to provide Leathers which is also a LWG Gold certified tannery.

The BDL (Blue Diamond Leders) Group already have a Shoe Upper Department producing 4000 pairs per day under the name & style of Prime Shoes.

With all the support from the parent company, KPN also launched their own domestic brand "KNOYAL", which will be the flagship brand of the Group.

KPN will also be taking up sandals and full shoes under its management

and which will be actively producing for exports and domestic markets from January 2020.

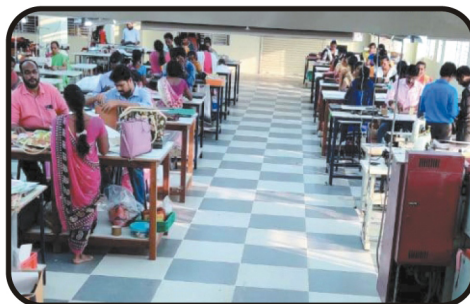

With all international false propaganda against leather and calling synthetics as Vegan, BDL Group have put his footforward to make a difference along with other like minded companies in the Industry.

“Engineering Life to the Lifeless” will be our slogan & caption of the BDL Group.

We are happy to invite all our privileged customers to have a tour of our tanneries, shoe upper & Leather Accessories factories in Chennai & Ranipet and feel the youngness and freshness in our approach and performance.

You may also visit our website [www.bluediamondleders.com](http://www.bluediamondleders.com) which is under process of up-gradation and additional inputs.
